What is PRAM?

In our ongoing effort to provide our members every possible advantage to finding relatives, and others searching similar family lines, HGSNY is proud to present our newest online genealogy tool, The **Puerto Rican Ancestor Match** (PRAM) system.

You can now connect with other HGSNY members to help find common ancestors or those researching the same towns as you are! Search by family surname or by the town your family came from. It's easy and it's free! If you're a member, simply sign in with your email address and the password provided to you. If you are not a member, register for free and add your own family surnames of research.

You will receive your password, via email and gain access to a growing database of fellow Puerto Rican family researchers from around the world!

Add as many family lines as you like with this unique search engine. The more lines you and others add, the more chances you'll have of connecting with unknown family members with ancestors you share.

This unique opportunity comes to you courtesy of HGSNY's creative team, who brought you the **Puerto Rican Genealogy Message Boards**, and the expertise and hard work of our webmaster.

The key to the success of PRAM is everyone's participation. Add and update your own research profile on our popular website, www.hispanicgenealogy.com and join thousands of others who are contributing their family research info on PRAM.

Register today. Tell your friends and, in no time, you will discover that *Somos Una Familia* is not just our credo.
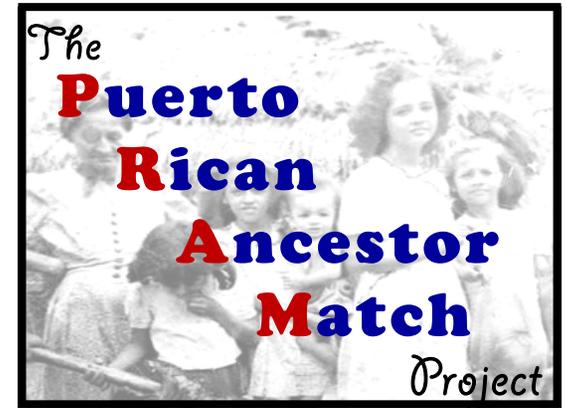

Guess what? You may have connected to a relative using our new Puerto Rican Ancestor Match (PRAM) system!

Using The
Puerto Rican Ancestor Match
System

If you're a member of HGSNY, you are already registered for full use of the PRAM system and all your family information has been imported and ready for you to update or add more.

If you are not a member of the society, no problem, you can register for free online. Once registered, you will be able to submit your surnames of research. First, you will receive an email with your password to enter into PRAM "Lite" version using your email address to log in.

Add as many surnames as you like. There are no limits and as more and more people discover the power of PRAM, we will make more family connections and find more family members, increasing your chances of making connections with other family researchers living anywhere in the world.

- As this database increases, the chances improve for successful finds.
- Your participation ensures others can find you, and vice versa.
- Using correct spelling, accents and Spanish letters, like ñ, are important.
- Adding **ONE** Surname, Town, Barrio and Country **PER LINE**. This will ensure successful searches, as only the first word will show in results.

For Reference: [Detailed Instructions On Use]

Surname:	Martinez
Town:	
Barrio:	
Country:	Puerto Rico

P.R.A.M. - Puerto Rican Ancestry Match (Search)

You may search on any one or more item(s), starting from Surname down (**it must be filled out starting from the top, but not every field need be populated**). Example: Just enter the first few characters of known Surname or Surname and Barrio or Surname, Barrio and Town and so on, then hit submit and our database will return the results if any.
If you want to add surnames to our database simply add your entries using the My Interest link. You can e-mail other members that appear in the search results below. Please know any reported spamming or misuse may result in your access being terminated. Please use the tool as intended with the spirit in mind of furthering genealogical research and connections.

For Reference: [Detailed Instructions On Use]

Our database returned 26 member(s) records matching your search.
